### Annual Implementation Plan

This week we would like to draw your attention to Baringa Schools 2025 Annual Implementation Plan (AIP). The Annual Implementation Plan outlines the goals we as a school community aim to achieve over the next year and the strategies we will use to do so. This year we are looking at how we can improve our student's independence skills by developing, documenting, and implementing a whole school approach to teaching functional life skills and drawing connections between our programs and the curriculum. At Baringa we believe developing students independence through life skills programming is of great importance so that our students can live life to the fullest, when they are adults.

Another goal for 2025 is to improve student outcomes in literacy. We know that the literacy skills of our students are a significant indicator for post school success, so this is another important goal as we want our students to reach their full potential, both now and after they complete school.

A copy of the plan can be found on the school's website at <https://www.baringass.vic.edu.au/strategic-documents> or in paper copy from the school administration office.

If you have any questions, please contact the school on 5127 1744.

## Our Commitment to Child Safety

Baringa School is committed to providing an environment where our students are safe and feel safe, where their participation is valued, their views respected, and their voices are heard about decisions that affect their lives. We promote positive relationships between students and adults and between students and their peers. These relationships are based on trust and respect. Particular attention is given to the child safety needs of Aboriginal students, those from culturally and linguistically diverse backgrounds, International students, students with disabilities, those unable to live at home, children and young people who identify as LGBTIQ+. Child safety is a shared responsibility. Every person involved in our school has an important role in promoting child safety and wellbeing and reporting any issues or concerns about a child's safety.

We are committed to making decisions that support our young people.

We want to encourage everyone to read our Child Safety Policy, Child Safety Code of Conduct and Child Safety Responding and Reporting Policy found on our website at <https://www.baringass.vic.edu.au/policies>. If you have any questions about the policies or suggestions for improvement, please contact the school on 51271744. We welcome your feedback.
